

HIGH PRESSURE ENGINE PUMP WITH OIL ALERT

Petrol engine twin impeller high pressure pump set

Applications

- Water irrigation sprinkling
- Orchard cultivation
- Pumping water from wells
- Feeding or draining water to/from ponds
- Feeding or draining water on fish farms
- Washing cattle, barns or agricultural tools
- Feeding water into water reservoirs

RT50VHP

Outstanding Features

Because of the high pressure flow rate, it is a very suitable pump for sprinkling
Emergency fire fighting and other uses, which require high delivery pressure
It ensures the high lift and is a must for sprinklers or for water delivery to high and distant places
