

SERH-50BDY

### Outstanding Features

- Because of the high pressure and flow rate, it is a very suitable pump for sprinkling, first fire fighting and other uses, which require high delivery pressures.
- Of all the high pressure engine pumps in its class, it ensures the highest lift and is a must for sprinklers or for water delivery to high and distant places.

### Applications

- Water irrigation sprinkling.
- Irrigation of rice field.
- Orchard cultivation.
- Pumping of well water.
- Feeding water into water reservoir.
- feeding or draining water from pond or troth.
- feeding or draining water from fish farm.
- Washing cattle or barn.
- Washing agricultural tools.
